

AMENDMENTS TO THE SPECIFICATION

Page 8

Please replace paragraph [0039] with the following amended paragraph:

--However, for a three-phase power source in which the phases (0, 240°) are 120° apart, the ~~the~~ rising edges of the above-described triggering signals (digital pulse waveforms) for the first and third phases do not occur within one-half cycle of each other. To remedy this, the triggering signal corresponding to the third phase is inverted according to an exemplary embodiment.--
